Large Buying Demand Attracted by Saturday's Spurt.

REALIZING WAS VERY HEAVY.

Bears Made a General Attack Late in the Day. Forcing Some Violent Declines, Making Close Very Active and Decidedly Weak.

(By Associated Press.)

NEW YORK, March 25.—The closing of to-days, stock market was in marked contrast with the opening. The first prices of stocks showed the effect of the large buying demand which had been attracted from entside speculators over Sunday by the favorable bank statement and the resulting upward spurt of prices in the Saturday market, but the results of to-day's operations indicate pretty clearly that uneasiness over the mency outlook was not entirely quieted by Saturday's bank statement.

uneasiness over the mency outlook was not entirely quieted by Saturday's bank statement.

Professional operators fed the outside demand very freely during the first hour, so that there were no important advances after the opening except where some special influence was at work. When the accumulation of buying orders in commission houses had been worked off, this profit-taking began to get the best of prices and forced a general decline. The effort of the leaders of the speculation during the rest of the day was to make an imposing show of sharp advances in the stocks of minor railroad companies concerning which plausible reports of consolidations with larger systems could be devised, and of which the capital issue or the floating supply of stock is sufficiently narrow to make possible effective manipulation by speculators of large resources.

There were so many of these gains and they were so impressive in extent as to serve very well the purpose of the bull leaders to cover their profit-taking movement elsewhere. But the bear operators gained courage as they detected the extent of the profit-taking-sales, and they made a general attack on the market late in the day, forcing some rather violent declines in the Grangers, Pacifics and Southwesterns, making the close a very active one and decidedly weak.

Every weakness appeared in the local traction stocks and in Sugar, but it did

and decidedly weak.

Every weakness appeared in the local traction stocks and in Sugar, but it did not immediately affect the whole market. After the large outside demand had been partly satisfied some sharp advances were caused among the junior Vanderbilt stocks, running in some cases up to over five points. The Wheeling and Lake Erie stocks were quite prominent, as were Consolidated Gas and a number of minor specialties. The Southern Pollusy status ting in some cases up to over The Wheeling and Lake Eric 1 outer prominent, as were 1 Gas and a number of minor 1 or Railway & Nav. 1 or Railway &

Chasiness is caused by the apparent dimensions ahead of the foreigh money market, inchest to the requirements for the coming German and British 19ams. The gibbard course of exchange arouses the appreciation that gone may go arroad. The continued grain of the Government severine surplies is also regarded with increasing seriousliess. COTTON MARKETS.

NEW YORK. March 25.—COTTON—Liverpool cables furnished a great surprise to the cotton trade this morning. The Liverpool market, following Saturday's decline, again dropped to-day 6 to 8 points on futures and \(^1\)4d. soot, while there were private cables calling the latter \(^1\)4d. lower and saying that English spinners were holding off for still lower prices, owing to the large Bombay movement and heavy receipts in this country.

Our market responded with a weak opening at a decline of 9 to 10 points, which was soon increased. Shorts were the only support, and covering caused a patrial reaction, after which the market again became weak, largely on account of estimated heavy receipts at Houston to-morrow. Reports of the destruction of Birmingham, Ala, failed to make an impression. One factor in the prevailing weakness was the large movement at Bombay; this reached 27,000 bales, against \$000 bales last year.

The market was further weakened by a predicted large movement for the futures in Texas. There was also some selling here in the expectation that the receipts in Texas. There was also some selling here in the ownernow. Closed steady at about the lowest price, a net decline of 12 to 26 points.
